

Face arrière

The diagram shows a technical drawing of a rectangular object. A vertical green line, representing a fold line, divides the object into two halves. A red line, representing a cut line, follows the outer perimeter of the object. The top and bottom edges of the object are slightly beveled. The left half is labeled 'Face arrière' and the right half is labeled 'Face avant'. A legend at the bottom identifies the line types: a red line for 'Traits de coupe', a green line for 'Traits de pliage', and a blue line for 'Bords perdus'.

Face avant

— Traits de coupe — Traits de pliage — Bords perdus
